Biography

Degree in Environmental and Territory Engineering and Professional Qualification at Pavia University (Italy).

Master of first level in "Integrated management of Environment-Health-Safety in industrial field" (GIASSI) at Insubria University (Varese, Italy).

Assistant Professor of Sanitary-Environmental Engineering and Aggregate Professor of Contaminated Land Restoration.

Member of the organization committee of VIII SIBESA (Italian-Brazilian Symposium of Sanitary-Environmental Engineering, Fortaleza, Cearà, Brazil, 17-23 September 2006) and member of the organization and scientific committee of Congress about International Cooperation for the Development, Varese, Italy, 23-24 October 2007.

Collaborator in some Cooperation Projects with Bahia State, Brazil.

Researches on up-grading measures applied to wastewaters treatment plants for Phosphorus and Nitrogen advanced removal.

Researches on wastewaters reuse and on grout-bentonite plastic curtains permeability.

Research interests

1. Sanitary-Environmental Engineering (Waters, Wastes, Energy);
2. Contaminated Sites Restoration.

Teaching experience and appointments

Aggregate Professor of "Contaminated Land Restoration" and Assistant Professor of "Sanitary-Environmental Engineering" for the degree course of "Engineering for Job and Environment Safety" (Insubria University, Varese, Italy).

Assistant Professor of "Foundations of Sanitary-Environmental Engineering" and "Industrial Bioengineering" for the degree courses of "Biological Sciences" and "Biotechnologies" (Insubria University, Varese, Italy).

Supervisor in several degree theses and member of several boards of degree examiners.

Representative publications

1. URBINI G., STELLA S., MOROSINI C. (2007).
Phytodepuration processes for small civil communities: plants carried

out in the Bahia State. Cooperazione Internazionale allo Sviluppo: Soluzioni Appropriate per Ambiente, Energia e Sviluppo Sostenibile. Varese. 23-24 Ottobre 2007 (IT).
