FINAL EXAM

The final exam, which is assigned 4 ECTS, consists in writing, presenting and discussing a thesis, written in Italian or in another language (French, English or Spanish), of at least 50 pages, prepared under the guidance of a lecturer of the Degree Course as tutor and, if applicable, a co-tutor. In case of theses written in another language, the DC will assign a tutor and/or co-tutor(s) with adequate linguistic skills. The abstract of the thesis presented by graduating students will have to be written in Italian and in the language used in the thesis.

The DC has prepared a detailed guide for writing the final thesis which is available on the website at the following page:

www.uninsubria.it/la-didattica/bacheca-della-didattica/esame-di-laurea-corso-triennale-storia-e-storie-del-mondo (in Italian)

The final exam syllabus is available on the Degree course website (www.uninsubria.eu/bachelor-history), by clicking on “More info”, then looking up on “Study plan” and in Year 3.

The Evaluation Committee, established following the University’s Teaching Regulations, is composed of 5 lecturers from the DC and generally includes the tutor. The discussion is public and the proclamation takes place at the end of the graduation session. The final mark, out of 110 and, if applicable, a summa cum laude, will be assigned by assessing the students’ general preparation, as attested by the exams marks, and by the maturity demonstrated in the final exam.

To determine the final mark the weighted average score of the marks obtained in the individual exams taken by candidates before the final exam will be calculated. The average score calculation is done according to the University’s Students Regulations

(www.uninsubria.it/sites/default/files/Statuto_e_regolamenti/regolamenti_studenti/Regolamento_di_Ateneo_per_gli_Studenti.pdf; in Italian).

To the average score, expressed out of 110, the following will be added:

- 1 point every 6 cum laude marks obtained by the candidate during their curriculum
- 2 points if the Final exam has been evaluated C
- 3 points if the Final exam has been evaluated B
- 4 points if the Final exam has been evaluated A
- 5 points if the Final exam has been evaluated A+

If, after this calculation, students have reached 110/110, the Committee can **decide** whether to assign the summa cum laude.

In order to help students prepare the thesis the Degree Course warmly **invites** graduating students to attend a specific seminar on the research activity and on the management of bibliographic resources offered during the 3rd year.

RULES FOR THE SUBMISSION OF STUDY PLANS AND INDIVIDUAL STUDY PLANS

Students will have to submit their Study Plan during the first year, with the possibility to modify it in the following years, following the University's administrative fulfillments calendar. Information on how to submit and fill in the study plan are available on the Students Services Office webpage (www.uninsubria.it/servizi/presentazione-piano-di-studio; in Italian).

Elective educational activities may be chosen among all courses activated by the University with the exception of some integrated courses offered by the limited access healthcare degree courses.

The Council of the Degree Course will assess the coherence of the abovementioned elective activities with the curriculum students have enrolled in.

Please note that the lessons of the elective courses chosen from other Degree Courses of the University may take place at the same time as the lessons of the Degree Course.
