Residence “Carlo Pomini”

Piazza Soldini, 5 - Castellanza, Varese (Italy)

Its location is useful both for those who need to attend the university buildings in Varese and for those who need to go to the buildings in Busto Arsizio.

The College has double rooms available for students of the University of Insubria.

IVARESE02 do not offer other accommodations, you might need to look for an accommodation on your own. Varese is a very little town, but we suggest you choose your first accommodation not far from the centre of town (where the two railways stations, Trenitalia and TreNord, and all bus stops are located).

The easiest way to find a room in a private shared flat is to look at the notice boards of each Department, where you will find lots of advertisements of other students who are looking for flat-mates, as well as flats to rent.
