Self-certification 2023/2024

The assessment of the student's economic situation is made with reference to the rules of the Economic Situation indicator referred to in Leg, decree 109/1998 and associated implementation and amendment provisions. According to this decree, the economic situation of those who apply **for support services linked to their income or social and support services not intended for everyone or in any case linked in extent or cost to given economic situations is determined with reference to their family. Two indices are calculated for this purpose: The ISE leconomic situation indicator, and the ISEE lequivalent economic situation indicator. The ISE is determined by total income, while the ISEE is calculated on the basis of the ratio between the ISE and the parameter corresponding to the specific family composition based on the equivalence scale referred to in Decree 109/198. THe ISE is determined by total income who assets and the single substitute declaration is issued by the competent CAF or benevolent fund.
